Dr T. R. Raina made a formal request for organising Conference Transcon- 2021 in J&K state. The same was approved.

Agenda Item No. 8

Any other point with the permission of the chair

Dr. P.K. Paliwal, gave an idea of organising world blood donor day 2021/2022 in India. This day has been instituted by WHO, who organize a global event in a different countries each year.

In the context that India is making the right efforts towards achieving the target of 100% Voluntary Blood Donation by 2020, and trying to ensure that safe blood is waiting for the patient in the Blood Banks without patients having to arrange blood donors, it would be appropriate for India to plan to host the event in the near future.

In this connection, Indian Society of Blood Transfusion and Immuno-haematology, a professional association of community leaders, blood bank experts, transfusion experts, blood donor organizers and motivators and other stakeholders engaged with the noble cause of Voluntary Blood Donation has greater than four decades of unstinting community engagement at the grass roots for promotion of voluntary blood donation in India.

It would be apt for this organization to take a lead on behalf of the country in organization of a Global event on the occasion of World Blood Donor Day and engage with National Blood Transfusion Council, Ministry of Health and Family Welfare, Govt of India and all other stakeholders and partners”. The idea was appreciated by all the members present in the meeting.

The meeting ended with a vote of thanks to the chair.

Dr. Sangeeta Pathak
Secretary General
